

AXISCADES Wins Aircraft Recognition Trainer Systems Contract from Ministry of Defence, GOI

Bangalore, 28th March 2016: AXISCADES Aerospace & Technologies Private Limited (ACAT) has won and signed a contract with Ministry of Defense, GOI for supply of 88 ACRT (Aircraft Recognition Trainer) systems. The contract was won after stiff competition from domestic defense companies including a Defence PSU; Bharat Electronics.

The contract is for supply of 88 ACRT systems to the Army and Indian Air Force over 18 months and subsequent warranty and AMC for 7 years

Aircraft Recognition Trainer (ACRT) System is a computer-based simulation that provides realistic aircraft recognition training by creating real world immersive battlefield environment for a trainee. The system has the capability to synthesize critical scenarios of aircraft missions over terrains (mountains, jungles, deserts, plains etc.) and environmental conditions (rain, snow fog etc). Exercises can be created on a GIS based planning console on a map (2D) background, simulating conditions similar to the planning of real aircraft missions. This system has been developed by cross-functional team at AXISCADES with deep domain knowledge and industry expertise

During the Press interaction, Mr. Sudhakar Gande, Vice Chairman, AXISCADES mentioned, **“This win demonstrates our technological capabilities. AXISCADES is involved in designing, developing, training and implementation of critical needs of Indian Defence forces and has established itself as a key partner to the country’s Defence requirements.”**

Commenting on the occasion, Brigadier SC Sharma, President and Director of the Company said **“After having developed and supplied CREWS, developed and won a contract for a VSHORADS simulator for Army Air Defence earlier and with development and winning of ACRTS contract now, ACAT has capability of simulating Air Defence environment, which includes sensors, weapons systems and targets. He attributed the success to deep understanding of development and needs of Defence Systems.”**

About AXISCADES Aerospace & Technologies Pvt. Ltd

AXISCADES Aerospace & Technologies Private Limited (ACAT) is a niche player focussed on high-end strategic technologies for the aerospace and defense sector with a proven track record. The company has built proprietary capabilities in system integration, design and development of solutions and platforms in the areas of automatic test equipment & test solutions, software and simulations, avionics, electronic warfare systems and paramilitary training solutions. ACAT is licensed by the MoD to undertake industrial manufacturing and is an industrial partner to marquee global aerospace and defence OEMs.
