

INDEPENDENT AUDITOR'S REPORT

To the Members of Cades Studec Technologies (India) Private Limited.

Report on the Audit of the Financial Statements**Opinion**

We have audited the accompanying financial statements of Cades Studec Technologies (India) Private Limited ("the Company"), which comprise the Balance sheet as at March 31, 2023 the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to

modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of Sub-section (11) of Section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except that the backup of the books of account and other books and paper maintained in electronic mode has not been maintained on servers physically located in India on daily basis;
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - (e) On the basis of the written representations received from the directors as on March 31, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls with reference to these financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
 - (g) There are no transactions on which provisions of Section 197 read with Schedule V of the Act are applicable to the Company for the year ended March 31, 2023;
 - (h) The qualification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph (b) above;

S.R. BATLIBOI & ASSOCIATES LLP

Chartered Accountants

- (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company does not have any pending litigations which would impact its financial position;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;
 - iv. a) The Management has represented that, to the best of its knowledge and belief, as disclosed in the note 40(v) to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
b) The Management has represented that, to the best of its knowledge and belief, as disclosed in the note 40(vi) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
 - v. No dividend has been declared or paid during the year by the Company.
 - vi. As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable for the Company only w.e.f. April 1, 2023, reporting under this clause is not applicable.

Annexure 1 referred to in paragraph 1 under the heading “Report on Other Legal and Regulatory Requirements” of our report of even date

Re: Cades Studec Technologies (India) Private Limited (‘the Company’)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) (a)(A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (B) The Company has maintained proper records showing full particulars of intangibles assets.
- (b) Property, Plant and Equipment have been physically verified by the Management during the year and no material discrepancies were identified on such verification.
- (c) There is no immovable property (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), held by the Company and accordingly, the requirement to report on clause 3(i)(c) of the Order is not applicable to the Company.
- (d) The Company has not revalued its Property, Plant and Equipment (including Right of use assets) or intangible assets during the year ended March 31, 2023.
- (e) There are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The Company’s business does not involve inventories and, accordingly, the requirements under clause 3(ii)(a) of the Order are not applicable to the Company.
- (b) The Company has not been sanctioned working capital limits in excess of Rs. five crores in aggregate from banks or financial institutions during any point of time of the year on the basis of security of current assets. Accordingly, the requirement to report on clause 3(ii)(b) of the Order is not applicable to the Company.
- (iii) (a) During the year the Company has not provided advances in the nature of loans, or provided security, or stood guarantee to companies, firms, Limited Liability Partnerships or any other parties. Further, during the year the Company has granted loan to other parties as follows:

Particulars	Loans (Rs. in Lakhs)
Aggregate amount granted/ provided during the year	
Others	
- Holding company (AXISCADES Technologies Limited)	400
- Fellow Subsidiary (AXISCADES Aerospace and Technologies Private Limited)	70
- Employees	96.10

S.R. BATLIBOI & ASSOCIATES LLP

Chartered Accountants

Particulars	Loans (Rs. in Lakhs)
Balance outstanding as at balance sheet date in respect of above cases	
Others	
- Holding company (AXISCADES Technologies Limited)	650
- Fellow Subsidiary (AXISCADES Aerospace and Technologies Private Limited)	310
- Employees	84.63

- (b) During the year, the Company has not provided security, provided guarantees and advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Further, during the year the investments made and the terms and conditions of the grant of loan to other parties and investments are not prejudicial to the Company's interest.
- (c) In respect of loans granted to companies, the schedule of repayment of principal and payment of interest has been stipulated and the repayment or receipts are regular except in the following cases:

Name of the Entity	Amount of Interest (in Rs. Lakhs)	Due date	Date of payment	Extent of delay
Holding company (AXISCADES Technologies Limited)	1.19	February 13, 2023	Not yet paid	-
Fellow Subsidiary (AXISCADES Aerospace and Technologies Private Limited)	0.47	October-31, 2022	January 31, 2023	93 days

- (d) There are no amounts of loans or advances in the nature of loans granted to companies, firms, limited liability partnerships or any other parties which are overdue for more than ninety days.
- (e) During the year, the Company had extended loan to a company to settle the loan granted to this party which had fallen due during the year. The aggregate amount of such dues extended loans and the percentage of the aggregate to the total loan granted during the year are as follows:

S.R. BATLIBOI & ASSOCIATES LLP

Chartered Accountants

Name of Parties	Aggregate amount of loans or advances in the nature of loans granted during the year (Rs. Lakhs)	Aggregate overdue amount settled by renewal or extension or by fresh loans granted to same parties (Rs. Lakhs)	Percentage of the aggregate to the total loans or advances in the nature of loans granted during the year
AXISCADES Aerospace and Technologies Private Limited (Fellow Subsidiary)	470	70	15%

- (f) The Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(f) of the Order is not applicable to the Company.
- (iv) Loans, investments, guarantees and security in respect of which provisions of Sections 185 and 186 of the Companies Act, 2013 are applicable have been complied with by the Company.
- (v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of Sections 73 to 76 of the Companies Act, 2013 and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.
- (vi) The Central Government has not specified the maintenance of cost records under Section 148(1) of the Companies Act, 2013, for the services of the Company.
- (vii) (a) Undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, custom duty, cess and other statutory dues have generally been regularly deposited with the appropriate authorities though there has been a significant delay in payment of provident fund in few cases. According to the information and explanations given to us and based on audit procedures performed by us, undisputed dues in respect of goods and services tax, provident fund, employees' state insurance, income-tax, custom duty, cess and other statutory dues which were outstanding, at the year end, for a period of more than six months from the date they became payable, are as follows:

Name of the Statute	Nature of the Dues	Amount (Rs. Lakhs)	Period to which the amount relates	Due Date	Date of Payment
Provident fund	Employer and Employee Contribution	0.35	April'22 to August'22	May 15, 2022 - September 15, 2022	Not yet paid

S.R. BATLIBOI & ASSOCIATES LLP

Chartered Accountants

- (b) There are no dues of goods and services tax, provident fund, employees' state insurance, income tax, sales-tax, service tax, customs duty, excise duty, value added tax, cess, goods and service tax and other statutory dues which have not been deposited on account of any dispute.
- (viii) The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.
- (ix) (a) The Company did not have any outstanding loans or borrowings or interest thereon due to any lender during the year. Accordingly, the requirement to report on clause ix(a) of the Order is not applicable to the Company.
- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) The Company did not have any term loans outstanding during the year hence, the requirement to report on clause (ix)(c) of the Order is not applicable to the Company.
- (d) The Company did not raise any funds during the year hence, the requirement to report on clause (ix)(d) of the Order is not applicable to the Company.
- (e) The Company does not have any subsidiary, associate or joint venture. Accordingly, the requirement to report on clause 3(ix)(e) and 3(ix)(f) of the Order is not applicable to the Company.
- (x) (a) The Company has not raised any money during the year by way of initial public offer / further public offer (including debt instruments) hence, the requirement to report on clause 3(x)(a) of the Order is not applicable to the Company.
- (b) The Company has not made any preferential allotment or private placement of shares /fully or partially or optionally convertible debentures during the year under audit and hence, the requirement to report on clause 3(x)(b) of the Order is not applicable to the Company.
- (xi) (a) No fraud by the Company or no fraud on the Company has been noticed or reported during the year.
- (b) During the year, no report under sub-section (12) of Section 143 of the Companies Act, 2013 has been filed by secretarial auditor or by us in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c) As represented to us by the Management, there are no whistle blower complaints received by the Company during the year.
- (xii) The Company is not a nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(a) to (c) of the Order is not applicable to the Company.

S.R. BATLIBOI & ASSOCIATES LLP

Chartered Accountants

- (xiii) Transactions with the related parties are in compliance with Sections 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards. The provisions of Section 177 of Companies Act, 2013 are not applicable to the Company and accordingly the requirements to report under clause 3(xiii) of the Order insofar as it relates to Section 177 of the Companies Act, 2013 is not applicable to the Company.
- (xiv) The Company does not have an internal audit system and is not required to have an internal audit system under the provisions of Section 138 of the Companies Act, 2013. Therefore, the requirement to report under clause 3(xiv)(a) and (xiv)(b) of the Order is not applicable to the Company.
- (xv) The Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence requirement to report on clause 3(xv) of the Order is not applicable to the Company.
- (xvi) (a) The provisions of Section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly, the requirement to report on clause (xvi)(a) of the Order is not applicable to the Company.
- (b) The Company has not conducted any Non-Banking Financial or Housing Finance activities without obtained a valid Certificate of Registration (CoR) from the Reserve Bank of India as per the Reserve Bank of India Act, 1934.
- (c) The Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3(xvi) of the Order is not applicable to the Company.
- (d) There is no Core Investment Company as a part of the Group, hence, the requirement to report on clause 3(xvi) of the Order is not applicable to the Company.
- (xvii) The Company has not incurred any cash losses in the financial year and in the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors during the year and accordingly requirement to report on Clause 3(xviii) of the Order is not applicable to the Company.
- (xix) On the basis of the financial ratios disclosed in note 38 to the financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

S.R. BATLIBOI & ASSOCIATES LLP

Chartered Accountants

- (xx) As per the provisions of Section 135 of the Companies Act, 2013, the Company is not required to spend any amounts towards corporate social responsibility. Accordingly, there are no unspent amounts to be transferred to special account in compliance with provision of Sub section (6) of Section 135 of the Companies Act, 2013 and hence the requirement to report on clause (xx)(a) and (xx)(b) of the Order is not applicable to the Company.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF Cades Studec Technologies (India) Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Cades Studec Technologies (India) Limited ("the Company") as of March 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls with Reference to these Financial Statements

A Company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

S.R. BATLIBOI & ASSOCIATES LLP

Chartered Accountants

A Company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Cades Studec Technologies (India) Private Limited
Statement of Profit and Loss for the year ended March 31, 2023
(All amounts in Rs. lakhs, unless otherwise stated)

	Notes	March 31, 2023	March 31, 2022
Income			
Revenue from contracts with customers	20	1,694.43	1,705.18
Other income	21	60.03	110.00
Finance income	22	62.37	48.58
Total income		1,816.83	1,863.76
Expenses			
Employee benefits expense	23	1,320.28	1,293.75
Depreciation and amortisation expense	24	95.62	127.80
Finance costs	25	39.42	59.50
Other expenses	26	118.03	133.28
Total expenses		1,573.35	1,614.33
Profit before tax		243.48	249.43
Tax expense:			
Current tax	28	69.67	68.71
Adjustment of tax relating to earlier years		-	0.32
Deferred tax credit		(7.16)	(5.33)
Total tax expense		62.51	63.70
Profit for the year		180.97	185.73
Other comprehensive income (OCI)			
Net other comprehensive income not to be reclassified to profit or loss in subsequent year			
Re-measurement gain/(losses) on defined benefit plans	34	4.99	(5.09)
Income tax effect		(1.26)	1.28
Net other comprehensive income not to be reclassified to profit or loss in subsequent year		3.73	(3.81)
Net other comprehensive income to be reclassified to profit or loss in subsequent year			
Gain/(loss) on cash flow hedges		0.66	(0.66)
Income tax effect		(0.17)	0.17
Net other comprehensive income to be reclassified to profit or loss in subsequent year		0.49	(0.49)
Total other comprehensive income for the year, net of tax		4.22	(4.30)
Total comprehensive income for the year, net of tax		185.19	181.43
Earning per share [nominal value of Share Rs. 10 (March 31, 2022 : Rs. 10)]			
Basic and Diluted	27	28.95	29.72

Cades Studec Technologies (India) Private Limited
Summary of significant accounting policies and other explanatory information for the period ended March 31, 2023
Notes to the Ind AS Financial Statements for the year ended March 31, 2023

1 Corporate information

Cades Studec Technologies (India) Private Limited ('Studec' the 'Company') is a Private Limited Company incorporated on 20 March 2006 under the Companies Act, 1956 having its registered office at No 11, 3rd Cross, Ganganagar North, near CBI office, Bangalore - 560032, Karnataka, India. The Company is a subsidiary of AXISCADES Technologies Limited ("ACTL"), a public limited company, operating in the business of Engineering Design Services. The Company is operating in the business of Documentation Engineering Services.

2 Significant accounting policies

2.1 Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III).

The financial statements have been prepared on a historical cost basis except certain items which need to be stated at fair value as per Ind AS

The financial statements are presented in Indian Rupees ('Rs.') and all values are rounded off to the nearest lakhs, except when otherwise indicated.

2.2 Summary of significant accounting policies

(a) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is

- Expected to be realised or intended to be sold or consumed in the normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is treated as current when

- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The terms of liability that could, at the option of the counterparty, result in its settlement by their realisation in cash and cash instruments do not affect its classification.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

(b) Property plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, cost of replacing part of the plant and equipment, borrowing costs if the recognition criteria are met and directly attributable cost of bringing the asset to its location and condition necessary for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit and loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

<u>Category of assets</u>	<u>Useful life estimated by management</u>
Office equipment's	7 years
Furniture & fixtures	7 years
Computers	3 years

The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of office equipment's and furniture & fixture's over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Leasehold improvements are depreciated over the primary lease period or useful life, whichever is shorter, on a straight-line basis.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

(c) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Goodwill, in general, is recorded in the books only when some consideration in money or money's worth has been paid for it. Whenever a business is acquired for a price (payable either in cash or in shares or otherwise) which is in excess of the value of the net assets of the business taken over, the excess is termed as 'goodwill'. Goodwill arises from business connections, trade name or reputation of an enterprise or from other intangible benefits enjoyed by an enterprise.

A summary of amortization policies applied to the Company's intangible assets is as below:

Category of assets	Useful life estimated by management
Computer software - application	3 years

(d) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations, including impairment of inventories, are recognised in the statement of profit and loss.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss.

Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

(e) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(This space has been intentionally left blank)

(f) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term which is nine years.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in note 2.2(d) Impairment of non-financial assets.

ii) Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of premises (i.e., those leases that have a lease term of 12 months or less from the commencement date). It also applies the lease of low-value assets recognition exemption to leases of premises that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

(g) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- (i) Financial assets at amortised cost (debt instruments)
- (ii) Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments)
- (iii) Financial assets at fair value through profit or loss
- (iv) Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Financial assets designated at fair value through OCI (equity instruments)

A 'financial assets' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

Financial assets at fair value through other comprehensive income (FVTOCI) (debt instruments)

A 'financial assets' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. For debt instruments, at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value changes recognised in OCI is reclassified from the equity to profit or loss.

The Company's debt instruments at fair value through OCI includes investments in quoted debt instruments included under other non-current financial assets.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss

This category includes derivative instruments and listed equity investments which the company had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are recognised in the statement of profit and loss when the right of payment has been established

Financial assets designated at fair value through OCI (equity instruments)

Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit and loss when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment

The Company elected to classify irrevocably its non-listed equity investments under this category.

Embedded derivatives

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's consolidated balance sheet) when

- ▶ The rights to receive cash flows from the asset have expired, or
- ▶ The Company's transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement, and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the group could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balances
- b) Financial assets that are debt instruments and are measured as at FVTOCI

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- (i) All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- (ii) Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

- (i) Financial assets measured as at amortised cost: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount
- (ii) Debt instruments measured at FVTOCI: Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and financial guarantee contracts.

Subsequent measurement

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 115.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(h) Revenue recognition

Revenue from contracts with customers is recognized when control over services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those services. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The specific recognition criteria described below must also be met before revenue is recognized.

The Company derives its revenues primarily from engineering design services. Service income comprises of income from time and material contracts. Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue. Revenue from fixed-price, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method.

Revenue is recognised as services are rendered on the basis of an agreed mark up on the costs incurred, in accordance with the terms of the agreement entered with the customers.

Revenues in excess of invoicing are classified as contract assets (also referred as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (also referred as unearned revenues).

Interest income

Interest income is reported on an accrual basis using the effective interest method and is included under the head "other income" in the Statement of Profit and Loss.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (g) Financial instruments – initial recognition and subsequent measurement.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

(This space has been intentionally left blank)

(i) Foreign currencies

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (i.e. the "functional currency"). The Company's financial statements are presented in Indian Rupee, which is also the Company's functional and presentation currency.

Transactions and balances

Foreign currency transactions are recorded on initial recognition in the functional currency using the exchange rate prevailing at the date of the transaction. However, for practical reasons, the Company uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on the settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

(j) Retirement and other employee benefits

Retirement benefit in the form of Provident Fund and Family Pension Fund are defined contribution schemes. The Company recognizes contribution payable to the schemes as an expense, when an employee renders the related service. The Company has no obligation, other than the contribution payable to the fund.

The Company operates a defined benefit plan for its employees for gratuity. The costs of providing benefits under this plan is determined on the basis of actuarial valuation at each year end using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to the statement of profit and loss in subsequent periods.

Past service costs are recognised in the statement of profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- (i) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- (ii) Net interest expense or income

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for, based on the actuarial valuation using the projected unit credit method at the year-end. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement beyond 12 months after the reporting date.

(k) Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income Tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amounts are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss (either in OCI or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences except:

- where deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement of profit or loss is recognised outside the statement of profit or loss (either in OCI or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

(l) **Earnings Per Share (EPS)**

Basic EPS amounts are calculated by dividing the net profit for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(m) **Provisions**

General

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit or loss net off any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Decommissioning liability

The Company records a provision for decommissioning costs to dismantle and remove the leasehold improvements from the leased premises. Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognised as part of the cost of the particular asset. The cash flows are discounted at a current pre-tax rate that reflects the risks specific to the decommissioning liability. The unwinding of the discount is expensed as incurred and recognised in the statement of profit and loss as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

(n) **Contingent liabilities**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements unless the possibility of an outflow of resources embodying economic benefits is remote.

Contingent liabilities and commitments are reviewed by the management at each balance sheet date.

(o) **Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

(p) **Segment accounting policies**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Company is engaged in the engineering design service, which constitutes its single reportable segment.

(q) **Fair value measurement**

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(r) **Use of judgements, estimates and assumptions**

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods

Other disclosures relating to the Company's exposure to risks and uncertainties includes:
Capital management (refer note 33)
Financial risk management objectives and policies (refer note 36)
Sensitivity analyses disclosures (refer note 34 and 36)

Judgments

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements

Leases

The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialised nature of the leased asset

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment

The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates

The Company has lease contract that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-flows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill and other intangibles with indefinite useful lives recognised by the Company.

Useful life of assets considered for depreciation of property, plant and equipment

The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by management at the time the asset is acquired and reviewed at each financial year end. The useful lives are based on technical advice, prior asset usage experience and the risk of technological obsolescence

Impairment allowance for doubtful debts

Trade receivables do not carry any interest and are stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts. Under Ind AS, impairment allowance has been determined based on Expected Credit Loss (ECL) model. Estimated irrecoverable amounts are based on the ageing of the receivable balance and historical experience. Individual trade receivables are written off if the same are not collectible

Taxes

Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Defined benefit plans (gratuity benefits)

The cost of defined benefit gratuity plan and other post-employment benefits are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Further details about gratuity obligations are given in Note 34

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. See Note 35 for further disclosures.

Provision for decommissioning

The Company has recognised a provision for decommissioning obligations relating to leasehold improvements. In determining the fair value of the provision, assumptions and estimates are made in relation to discount rates, the expected cost to dismantle and remove the set up from the leased premises and the expected timing of those costs. The carrying amount of the provision as at March 31, 2023 was Rs. 4.90 lakhs (March 31, 2022: Rs. 4.96 lakhs). The Company estimates that the costs would be realised upon the expiration of the respective leases and calculates the provision using the DCF method based on the following assumptions:

- Estimated cost – 1 months' rent for respective leased premises
- Discount rate – 9%

2.3 Changes in accounting policies and disclosures

There are no new accounting policies applied during the current year.

2.4 New and amended standards

The Company has not early adopted any standards, amendments that have been issued but are not yet effective/notified.

(i) Ind AS 16 - Property, Plant and Equipment: Proceeds before Intended Use

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standard) Amendment Rules 2022 dated March 23, 2022, which is effective from April 01, 2022 to amend the Ind AS 16 to clarify that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment.

The amendments are effective for annual reporting periods beginning on or after 1 April 2022. These amendments had no impact on the financial statements of the company as there were no sales of such items produced by property, plant and equipment made available for use on or after the beginning of the earliest period presented.

(ii) Ind AS 109 Financial Instruments – Fees in the '10 per cent' test for derecognition of financial liabilities

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standard) Amendment Rules 2022 dated March 23, 2022, which is effective from April 01, 2022 to amend the Ind AS 109 to clarify the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. The amendments are effective for annual reporting periods beginning on or after 1 April 2022. These amendments had no impact on the financial statements of the company as there were no modifications/exchanges of the company financial instruments during the period.

2.5 Standards notified but not yet effective

(i) Ind AS 8 - Definition of Accounting Estimates

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated 31 March 2023 to amend Ind AS 8 to clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

The amendments are effective for annual reporting periods beginning on or after 1 April 2023 and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period.

The amendments are not expected to have a material impact on the Company's financial statements.

(ii) Ind AS 1 - Disclosure of Accounting Policies

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated 31 March 2023 to amend Ind AS 1 to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments to Ind AS 1 are applicable for annual periods beginning on or after 1 April 2023. Consequential amendments have been made in Ind AS 107.

The Company is currently revisiting their accounting policy information disclosures to ensure consistency with the amended requirements.

(iii) Ind AS 12 - Deferred Tax related to Assets and Liabilities arising from a Single Transaction

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated 31 March 2023 to amend Ind AS 12 to narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences.

The amendments should be applied to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, at the beginning of the earliest comparative period presented, a deferred tax asset (provided that sufficient taxable profit is available) and a deferred tax liability should also be recognised for all deductible and taxable temporary differences associated with leases and decommissioning obligations.

Consequential amendments have been made in Ind AS 101. The amendments to Ind AS 12 are applicable for annual periods beginning on or after 1 April 2023.

The Company is currently assessing the impact of the amendments.

29 Related party disclosures

i. Name of Related party where control exists irrespective of whether transaction have occurred or not :

Nature of relationship	Name of party
Holding Company	AXISCADES Technologies Limited

ii. Name of other related parties with whom transaction are taken place during the year :

Entities under common control	AXISCADES Aerospace & Technologies Private Limited
Entities having significant influences	Studec SAS

iii. Key Management Personnel (KMP)

Director	Shashidhar Srirangapatna krishnamurthy
Director	Sharadhi Chandra Babu Pampapathy
Director	Philippe Chabaliere
Director	Abhay Sharma

iv. Transactions with above related parties during the year :

Name of Related Party	Nature of Transaction	March 31, 2023	March 31, 2022
AXISCADES Aerospace & Technologies Private Limited	Interest income	24.80	24.80
AXISCADES Technologies Limited	Interest income	31.04	17.50
Studec SAS (Includes unbilled revenue of 30.21 Lakhs for March 31, 2023 and Unearned Revenue of Rs. 2 lakhs for March 31, 2022)	Sale of services	1664.78	1,699.41
AXISCADES Technologies Limited	Sale of services	29.65	5.77

Balances with related parties are as follows :

Name of Related Party	Nature of balance	March 31, 2023	March 31, 2022
AXISCADES Technologies Limited	Trade receivables	9.45	0.48
	Unbilled revenue	4.58	-
Studec SAS	Trade receivables	676.13	736.55
	Unearned revenue	-	2.00
	Unbilled revenue	30.21	-

Loans to related parties

Particulars	Opening balance	Loans given	Repayment	Loan outstanding	Interest receivable
AXISCADES Aerospace & Technologies Private Limited (Fellow subsidiary)					
March 31, 2023	310.00	-	-	310.00	-
March 31, 2022	310.00	-	-	310.00	5.50
AXISCADES Technologies Limited (Holding Company)					
March 31, 2023	250.00	400.00	-	650.00	7.78
March 31, 2022	250.00	-	-	250.00	-

Terms and conditions of transaction with related parties :

The sale to related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured and interest free (except the inter corporate deposit) and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables. For the year ended March 31, 2023 and March 31, 2022, the Company has not recorded any impairment of receivables relating to amounts owned by related parties. These assessment is undertaken each financial year through examining the financial position of the related party and the market in which related party operates.

30 Segment reporting

The Board of Directors of the Company has been identified as the Chief Operating Decision Maker (CODM) as defined by IND AS 108, Operating Segments. The CODM evaluates the Company's performance and allocates resources based on an analysis of documentation engineering services .

The Company is primarily engaged in a single segment (business and geographical) i.e. documentation engineering services outside India. As the Company's business activity primarily falls within a single business and geographical segment, there are no additional disclosures to be provided in terms of Ind AS 108 on 'Operating Segments'

(This space has been intentionally left blank)

31 Right-of-use assets and lease liabilities

a) Company as a lessee

The Company has entered into property leases for carrying out its operations at the Head Office. These leases are for a period of nine years. The Company's obligations under its leases are secured by the lessor's title to the leased assets. Generally, the Company is restricted from assigning and subleasing the leased assets. These lease contracts include extension and termination options.

Below are the carrying amounts of right-of-use assets recognised and the movements:

	March 31, 2023	March 31, 2022
	Leasehold Buildings	Leasehold Buildings
Opening balance	341.69	735.62
Additions	-	-
Lease Modification	(38.27)	-
Deletions	-	(316.33)
Depreciation expense	(50.57)	(77.60)
Closing carrying amount	252.85	341.69

Below are the carrying amounts of lease liabilities and the movements:

	March 31, 2023	March 31, 2022
	Leasehold Buildings	Leasehold Buildings
Opening balance	411.65	801.06
Additions	-	-
Lease Modification	(38.27)	-
Deletions	-	(377.96)
Accretion of interest (refer note 25)	30.20	49.68
Payment of interest portion of lease liabilities	(30.20)	(49.68)
Payment of principal portion of lease liabilities	(40.71)	(11.45)
Closing carrying amount	332.67	411.65
Current	48.10	45.19
Non-current	284.57	366.46
	332.67	411.65

The table below provides details regarding the contractual maturities of lease liabilities as at March 31, 2023 and as at March 31, 2022 on an undiscounted basis:

Particulars	March 31, 2023	March 31, 2022
Less than one year	74.46	78.18
One to five years	336.97	353.82
More than five years	-	99.78
	411.43	531.78

The weighted average incremental borrowing rate for lease liabilities is 9.00%, with maturity at the end of March 31, 2028 for leasehold buildings.

The following are the amounts recognised in profit or loss:

	March 31, 2023	March 31, 2022
Depreciation expense of right-of-use assets	50.57	77.60
Interest expense on lease liabilities	30.20	49.68
Gain on termination of Right to use assets	-	(61.63)
Lease rent concession	-	(12.32)
Total amount recognised in profit or loss	80.77	53.33

The Company had total cash outflows for leases of Rs. 70.91 lakhs for the year ended March 31, 2023 (March 31, 2022 - Rs. 61.12 lakhs). There is no non cash additions during the year (March 31, 2022 - Rs. Nil). There are no future cash outflows relating to leases that have not yet commenced.

32 Hedging and derivatives

- (a) During the year, the outstanding forward contract has been cancelled/matured and accordingly the gain/loss on cash flow hedge has been reclassified to profit or loss from other comprehensive income. There are no outstanding derivatives contracts as at March 31, 2023 (March 31, 2022 - Rs. 0.49 lakhs).
- (b) The following are the outstanding derivatives contracts entered into by the Company.

Category	CUR	Buy / Sell	(In Lakhs)	
			March 31, 2023	March 31, 2022
Forward contracts	USD	Sell	-	5.00

33 Capital management

For the purpose of the Company's capital management, capital includes issued capital, additional paid in capital and all other equity reserves attributable to the equity shareholders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets its liabilities due. The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company being debt-free, capital gearing ratio is not applicable.

34 Gratuity

The Company has provided for the gratuity liability (defined benefit plan), as per actuarial valuation carried out by an independent actuary on the Balance Sheet date.

A Defined benefit contributions

The Company makes contribution to statutory provident fund as per Employees Provident Fund and Miscellaneous Provision Act, 1952 for its employees. This is a defined contribution plan as per Ind AS 19, Employee benefits. Contribution made during the year ended March 31, 2023 is Rs. 73.22 Lakhs (March 31, 2022 - Rs. 69.92 lakhs).

B Defined benefit plans

The Company provides gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/ termination is the employees last drawn salary per month computed proportionately for 15 days salary multiplied for the number of completed years of service.

The following table summarise the components of net benefit expense recognised in the statement of profit and loss and amounts recognised in the balance sheet for the respective plans:

a) Statement of profit and loss

Net employee benefit expenses recognized in the employee cost

Employee benefits expense

Current service cost

Interest on defined benefit obligation

Net employee benefit expenses charged to statement of profit and loss

March 31, 2023	March 31, 2022
17.19	16.80
8.82	8.60
26.01	25.40

b) Balance Sheet

Details of provision for gratuity

Defined benefit obligation

Plan liability

March 31, 2023	March 31, 2022
173.70	175.17
173.70	175.17

c) Changes in the present value of the defined benefit obligation are as follows:

Defined benefit obligation at the beginning of the year

Current service cost

Interest cost

Benefits paid

Actuarial loss due to demographic assumption changes

Actuarial gain due to financial assumption changes

Actuarial loss due to experience adjustments

Defined benefit obligation at the end of the year

March 31, 2023	March 31, 2022
175.17	166.47
17.19	16.80
8.82	8.60
(22.49)	(21.46)
-	(6.62)
(14.12)	1.22
9.13	10.16
173.70	175.17

d) Components remeasurement losses/(gains) in other comprehensive income

Actuarial loss due to demographic assumption changes

Actuarial gain due to financial assumption changes

Actuarial loss due to experience adjustments

Remeasurement (gain)/loss in other comprehensive income

-	(6.62)
(14.12)	1.22
9.13	10.16
(4.99)	4.76

e) The principal assumptions used in determining gratuity obligations for the Company's plans are disclosed below:

Discount rate

Salary escalation rate

Attrition rate

Retirement age

Indian assured lives mortality (2012-14) ultimate [as a percentage of

Indian assured lives mortality]

March 31, 2023	March 31, 2022
7.26%	5.38%
5% for 2 years, 9% thereafter	5% for 2 years, 9% for 3-5 years and 9% thereafter
40.00%	40.00%
58 years	58 years
100.00%	100.00%

The estimates of future salary increase, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

f) A quantitative sensitivity analysis for significant assumption is as disclosed below:

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, attrition rate, expected salary increase and mortality. The sensitivity analysis below has been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The following table summarizes the impact of change in the defined benefit obligation resulting from the specified percentage change in the aforementioned assumptions.

Particulars	March 31, 2023		March 31, 2022	
	Increase	Decrease	Increase	Decrease
Discount rate (increase or decrease by 1%)	(7.51)	8.39	(7.81)	8.78
Salary escalation rate (increase or decrease by 1%)	6.03	(6.05)	6.41	(6.29)
Attrition rate (increase or decrease by 1%)	(0.84)	0.93	(1.66)	1.85
Mortality rate (increase by 10%) (The impact of change in mortality rate by 10% as at March 31, 2023 is Rs. 2,259 (March 31, 2022 : Rs. 4,080) for increase and Rs. 2,259 (March 31, 2022 : Rs. 4,080) for decrease)	(0.02)	(0.02)	(0.04)	(0.04)

The sensitivity analyses above have been determined based on a method that extrapolates the impact on Defined Benefit Obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous year.

g) Effect of plan on entity's future cash flows

Expected cash flows over the next: (valued on undiscounted basis)	March 31, 2023	March 31, 2022
Within next 12 months	47.18	49.51
Between 1-5 years	94.37	88.01
Between 6-10 years	33.12	29.51
Above 10 years	92.72	72.32

The average duration of defined plan obligation at the end of the reporting period is 2.21 years (March 31, 2022: 2.36 years)

(This space has been intentionally left blank)

35 Fair value measurements

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: Quoted prices (unadjusted) in active markets for financial instruments

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3

Quantitative disclosure fair value measurement hierarchy as at March 31, 2023

Particulars	Date of Valuation	Carrying Value	Quoted price in active market (Level 1)	Significant observable input (Level 2)	Significant unobservable inputs (Level 3)
Financial assets at FVTPL					
Investment in mutual fund units (refer note 9)#	March 31, 2023	446.77	446.77	-	-
Financial assets at amortised cost

Trade payables (refer note 16)*	March 31, 2023	24.44	-	-	24.44
Other financial liabilities (refer note 17)*	March 31, 2023	36.38	-	-	-
Financial liabilities at fair value					
Derivative instruments	March 31, 2023	-	-	-	-
		60.82	-	-	24.44

Quantitative disclosure fair value measurement hierarchy as at March 31, 2022

Particulars	Date of Valuation	Carrying Value	Quoted price in active market (Level 1)	Significant observable input (Level 2)	Significant unobservable inputs (Level 3)
Financial assets at FVTPL					
Investment in mutual fund units (refer note 9)#	March 31, 2022	716.90	716.90	-	-
Financial assets at amortised cost					
Cash and cash equivalent (refer note 11)*	March 31, 2022	52.47	-	-	52.47
Other bank balances (refer note 12)	March 31, 2022	50.00	-	-	50.00
Trade receivables (refer note 10)*	March 31, 2022	737.03	-	-	737.03
Loans (refer note 5)##	March 31, 2022	560.00	-	-	560.00
Other financial assets*	March 31, 2022	129.64	-	-	129.64
		2,246.04	716.90	-	1,529.14
Financial liabilities at amortised cost					
Trade payables (refer note 16)*	March 31, 2022	17.86	-	-	17.86
Other financial liabilities (refer note 17)*		37.60	-	-	-
Financial liabilities at fair value					
Derivative instruments	March 31, 2022	0.66	-	-	-
		56.12	-	-	17.86

*The Management assessed that the fair value of cash and cash equivalents, other bank balances, trade receivables, other current financial assets (excluding security deposits), trade payables and other current financial liabilities, as applicable approximate the carrying amount largely due to short-term nature and are classified as Level 3 fair values. The fair values for security deposits forming part of other financial assets were calculated based on discounted cash flows using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit risk.

Investment in mutual funds are based on the net assets value as published by the funds, hence they are classified as level 1 of fair value hierarchy

The fair values of these accounts were calculated based on cash flow discounted using a current lending/ borrowing rate and other relevant assumptions, they are classified as level 3 of fair value hierarchy due to inclusion of unobservable inputs including counterparty credit risk and market factors

The fair value of the financial assets is included at the amount at which instruments could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale

There has been no transfers between Level 1, Level 2 and Level 3 for the year ended 31 March 2023 and 31 March 2022.

(This space has been intentionally left blank)

36 Financial risk management

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange exposure risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of the customer.

(A) Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to Rs 685.58 lakhs as of March 31, 2023 (March 31, 2022 : Rs. 737.03 lakhs). Trade receivables are unsecured and are derived from revenue from services rendered to its customer. The Company operates under cost plus mark up arrangement with its significant customers.

(i) Trade receivables

Customer credit risk is managed by the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored and credit quality of a customer is assessed and individual credit limits are defined in accordance with this assessment.

The maximum exposure to credit risk at the reporting date is the carrying value of trade and other receivables as disclosed in note 10 and 6. The allowance for impairment in respect of trade and other receivables for the year ended March 31, 2023 is Rs Nil (March 31, 2022 : Rs Nil)

(ii) Financial instruments and deposits

Credit risk on cash and cash equivalent and inter-company deposits is limited as the Company generally transacts with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies and its own subsidiaries or fellow subsidiaries. Investments of surplus funds, temporarily, are made only with approved counterparties, mainly mutual funds, who meet the minimum threshold requirements under the counterparty risk assessment process.

(B) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

As at March 31, 2023	Less than 1 year	1 year to 5 years	More than 5 years	Total
Trade payables	24.44	-	-	24.44
Lease liabilities	74.46	336.97	-	411.43
Other financial liabilities	36.38	-	-	36.38

As at March 31, 2022	Less than 1 year	1 year to 5 years	More than 5 years	Total
Trade payables	17.86	-	-	17.86
Lease liabilities	78.18	353.82	99.78	531.78
Other financial liabilities	38.26	-	-	38.26

(This space has been intentionally left blank)

36 Financial risk management (cont'd)

(C) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company is exposed to foreign currency risk.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency). As at March 31, 2023 and March 31, 2022, the Company has following foreign currency exposures:

Particulars of unhedged foreign currency exposure as at the reporting date:

Particulars	March 31, 2023			March 31, 2022	
	Currency*	Foreign Currency	Amount in Rs.	Foreign Currency	Amount in Rs.
Trade receivables	USD	8.22	676.13	9.72	736.55
Unbilled revenue	USD	0.37	30.21	-	-
Unearned revenue	USD	-	-	(0.03)	(2.00)
		8.59	706.34	9.69	734.55

* USD- US Dollar

Foreign currency risk sensitivity

The following table details the Company's sensitivity to a 1% increase/decrease in the Rs. against the foreign currency. 1% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year-end for a 1% change in foreign currency rates, with all other variables held constant. A positive number below indicates an increase in profit or equity where rupees strengthens 1% against the relevant currency. For a 1% weakening of rupee against the relevant currency, there would be a comparable impact on profit or equity, and the balances below would be negative.

Particulars	As at March 31, 2023		As at March 31, 2022	
	Increase	Decrease	Increase	Decrease
INR/USD	7.06	(7.06)	7.35	(7.35)

The foreign Currency risk sensitivity based on trade receivables, unbilled revenue and unearned revenue as of March 31, 2023 and March 31, 2022.

Derivative financial instruments

The Company holds derivative financial instruments such as foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank or a financial institution. These derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

The following table gives details in respect of outstanding foreign exchange forward contracts

Particulars	(In Lakhs)		
	Currency*	March 31, 2023	March 31, 2022
Forward contracts	USD	-	5.00

The foreign exchange forward contracts mature within twelve months. The table below analyses the derivative financial instruments into relevant maturity groupings based on the remaining period as of the balance sheet date:

Particulars	(In Lakhs)	
	March 31, 2023	March 31, 2022
Not later than one month	-	-
Later than one month and not later than three months	-	-
Later than three month and not later than one year	-	5.00

37 Transfer Pricing

During the year ended March 31, 2023, the Company has entered into certain transactions with its related parties as defined under section 92BA of Income Tax Act, 1961 ("the Act"). The Company, as required under the Act, is in the process of getting the transfer pricing evaluation conducted for International and Specified Domestic Transactions undertaken during the year. The Company is confident that the International and Specified Domestic Transactions with associated/related enterprises are at arm's length, and accordingly does not expect any material financial adjustment on completion of the transfer pricing evaluation.

38 Ratio Analysis and its elements

Ratio	Numerator	Denominator	March 31, 2023	March 31, 2022	% Changes	Reason for Variance
Current ratio	Current Asset	Current Liabilities	12.57	9.53	32%	Due to increase in current maturity of long term loans
Debt- Equity Ratio	Total Debt	Total Equity	0.14	0.18	-25%	Reduction in Lease Liability
Debt Service Coverage ratio	Earnings for debt service = Net profit after taxes + Non-cash operating expenses	Debt service = Interest & Lease Payments + Principal Repayments	4.33	5.27	-18%	
Return on Equity ratio	Net Profit after taxes(excluding OCI)	Average share holder Equity	0.08	0.09	-10%	
Trade Receivable Turnover Ratio	Turnover	Average Trade Receivable	2.38	2.35	1%	
Trade Payable Turnover Ratio	Turnover	Average Trade Payable	80.12	86.75	-8%	
Net Capital Turnover Ratio	Turnover	Working Capital = (Current Assets- Current Liability)	0.75	1.13	-34%	Due to increase in current maturity of long term loans
Net Profit ratio	Net Profit after taxes(excluding OCI)	Turnover	0.11	0.11	-2%	
Return on Capital Employed	Earnings before interest and taxes	Capital employed = Tangible Network + Total Debt + Deferred Tax Liability	0.10	0.17	-40%	Decline in EBIT
Return on Investment	Interest (Finance Income)	Investment	0.06	0.07	-10%	

39 The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified and the final rules/ interpretation have not yet been issued. The Company will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.
